Chris Ross
Senior Account Executive, Construction
Zurich North America
2000 Market Street - Suite 1000
Philadelphia, PA 19103

Dear Chris:

Egg Electric has been a valued union Electrical subcontractor partner of Turner Construction for over 25 years. I am pleased to offer this formal letter of reference for the overwhelming performance they have done for Turner Construction Company.

We choose to partner with Egg Electric because of their commitment to safety, keen attention to detail and expertise in the construction industry. We have the upmost confidence that Egg Electric and their high quality subcontractors will complete our project on time and without incident.

Our confidence in Egg Electric stems from the leadership and vast experience of their CEO Ellen Aschendorf. Ellen's dedication to safe and efficient construction practices has improved all facets of how electrical work is performed in the New York City area. Ellen has also been named Crain's "Top 40 Under 40" Executives and Inc. Plans "Entrepreneur of the Week".

I personally have known Ellen & Egg Electric for 25 years and would want her team on any projects for Turner.

Regards,

Mark A. Boyle
Sr. Vice President
Chief Procurement Officer
